Hey Samir,

Greetings from MIT-WPU School of Management (PG)!

We are organizing Annual Talent Search'19 from October 14th to 18th of this year, where students would get a chance to show off their tech & managerial skills through hackathon & case studies.

This year, we have decided the problem statements for hackathon to be completely shared by the companies. Which allows you to have a clear understanding of student's capabilities in working on problems that you are trying to solve!

During Talent Search, you will get a chance to hire the best tech & managerial talent from the following domains -

TECHNOLOGY - Front-End & Back-End Development, Programming, UI/UX Designing, Software Development, AI/ML Development, Mobile App Development

MANAGEMENT - General Management, HR, Operations, Marketing, CSR, Hospital & Healthcare, Banking & Financial, Construction & Project, International Business, Telecom, Sports, Finance, Innovation & Entrepreneurship.

Please feel free to contact me anytime for more information, reply on this email to confirm your participation and to share the problem statement.

Looking forward to your response.

Accept Invitation & Reply

Best Regards,
Sanjay Chandrakant Khubchandani
